Marin State Parks Association, Friends of China Camp and California State Parks Hold Public Hearing On Partnership Agreements

Novato, CA - The public is invited to attend a hearing hosted by the California Department of Parks and Recreation (State Parks), the Marin State Parks Association, and Friends of China Camp on Tuesday January 21, 2014 at 7:00 p.m. at Olompali State Historic Park in Novato. The hearing's purpose is to discuss experiences and lessons learned in operating China Camp State Park, Olompali State Historic Park, and Tomales Bay State Park in the past year as well as to highlight plans for the coming year.

Friends of China Camp, a committee of the non-profit Marin State Parks Association, entered into operating and donor agreements with California State Parks under AB 42 (Chapter 450, Statutes of 2011). This unique, public-private partnership has enabled continuous access to these popular sites for public enjoyment.
